Colonel Joseph P. Kish, Director
Engineering and Housing
U. S. Army Air Defense Artillery Center and Fort Bliss
Fort Bliss, Texas 79916-6103

RE: NM 4213720101

Dear Colonel Kish:

In your letter of July 8, 1988, you provided initial notification under 40 CFR 264 Subpart X for the Army activities at McGregor, Dona Ana and Orogrande ranges. EPA has assigned facility identification number NM 4213720101 to these ranges. This number applies to all USAADAC activities in New Mexico which are subject to RCRA.

Please submit all future correspondence, reports and permit applications to New Mexico Environmental Improvement Division; Hazardous Waste Bureau; 1190 St. Francis Drive, Santa Fe, New Mexico 87503. This is our new address form and should be used in lieu of the post office box address formerly used.

The State of New Mexico has not yet adopted the Subpart X regulations but we are accepting the notifications and permit applications. We anticipate adoption of the regulations in CY 89 and processing of appropriate permits in FY 90.

If there are any questions, please call me at (505) 827-2923 or write to the above address.

Sincerely,

C. Kelley Crossman
Permitting Supervisor
