Dear Ms. Andrade:

Enclosed are the permit condition evaluation guidance and permit checklist for the general standards required for facilities seeking a permit as outlined in 40 CFR 270, Subpart B-Permit Application. The regulations regarding open detonation were promulgated December 10, 1987 and, consequently, no evaluation guidance or checklist for this process have been developed. Please refer to the Federal Register of Thursday, December 10, 1987, pp.46946-96985 for the regulations on open detonation.

If you have any questions, please contact me at (505) 827-2934.

Yours truly,

A. Elizabeth Gordon, Ph.D.
Environmental Supervisor
