Dear Ms. Hoditschek:

In reference to your administrative review of Subpart X, Part B, Permit Application, we received the Notice of Deficiency on April 5, 1993. Fort Bliss is planning to hire an Architectural and Engineering (A & E) firm to correct the deficiencies enunciated in your letter. Since we need to go through the procurement process with the A & E firm, it is difficult to gather all the information needed, to meet the 45-day requirement deadline.

Please grant us an extension of 90 days. We will appreciate greatly the extra time because it will enable us to mail you a completed package by August 20, 1993.

If you have any questions or need more information, please contact Mr. Rab, at this Directorate, at (915) 568-1064 or 568-1051.

Sincerely,

James W. Conyers, Jr.
Director of Environment
