DEPARTMENT OF THE ARMY
41ST ORDNANCE DETACHMENT (EOD)
52D ORDNANCE GROUP (EOD)
FORT BLISS, TEXAS 79916-6803

ENTERED

AFYB-BB

21 Sep 95

MEMORANDUM FOR: Hazardous and Radioactive Materials Bureau, Santa Fe, New Mexico
Attn: Barbara Hoditschek

SUBJECT: Request Exception to Part B Permit Requirements.

1. The Part B permit that has been issued to Fort Bliss for the operation of an open detonation site authorizes the destruction of 1372 pounds of hazardous waste per calendar year. The desire to modify the permit to authorize 10,000 pounds per year has already been staffed at the Fort Bliss level. However, the quarterly allowance (343 pounds) has not been addressed, because the modification will eliminate the possibility of needing to exceed these limits in any given quarter. Therefore, the solution is in the works.

2. I am requesting that the 41st Ordnance Detachment (Explosive Ordnance Disposal) be authorized to exceed the quarterly restriction on a one time basis. The annual limit will not be exceeded. The ammunition scheduled to be destroyed is approaching the window of exceeding the 90 days storage limitations. The demolition operation has been scheduled for 22 Sep 95 and due to the fact that the demolition range is in the middle of an active range, rescheduling the use of the OD site is very difficult.
