RE: Approval of Fort Bliss' Request for a Ninety Day Extension to Submit the RCRA Facility Investigation Workplan, EPA I.D. No. NM4213720101.

Dear Ms. Bone:

On October 16, 1995 the Environmental Protection Agency (EPA) received your request for a ninety day extension on the deadline to submit the Phase I RCRA Facility Investigation (RFI) workplans associated with the Fort Bliss Subpart-X HSWA permit.

EPA is aware of the funding cuts impacting corrective actions at Federal facilities. Every effort is made to assist Federal facilities to maintain compliance with the corrective action schedules listed in their permits. Consequently EPA approves your request for a ninety day extension to submit the Phase I RFI workplans to address releases from solid waste management units at Fort Bliss. The new deadline for submitting the workplans will be ninety days from the receipt of this letter.

If you have any questions concerning EPA's approval of Fort Bliss' request for a ninety day extension for submitting the Phase I RFI workplans please contact James Harris of my staff at (214) 665-8302.

Sincerely,

David W. Neleigh
