Subject: 2003 Hazardous Waste Report (Biennial Report)

Linda -- To summarize our telephone conversations this morning:

* For 2002 and 2003, Fort Bliss was a Small Quantity Generator in New Mexico; but during those years, Fort Bliss operated a hazardous waste treatment facility, Permit NM4213720101-01, for waste munitions.

* Even though Fort Bliss is a SQG, I though we had to submit a Biennial Report because we treated hazardous waste on site during 2003.

* You asked Glenn von Gonten about the reporting requirement and told me that Glenn said: the Biennial Report is "mainly for Large Quantity Generators" and that Fort Bliss does not have to submit the 2003 Hazardous Waste Report.

If I have misstated anything in this message, please contact me by email or call me at 915 568-6077.

Thank you very much for your help this morning.
