**RE: NOTICE OF APPROVAL
REPORTS OF ANNUAL POST-CLOSURE SITE INSPECTIONS;
DOÑA ANA RANGE CAMP LANDFILL (SWMU 29/FTBL-011),
FORT BLISS, NEW MEXICO
EPA ID #NM4213720101
HWB-FB-10-003**

Dear Mr. Landreth:

The New Mexico Environment Department (NMED) has received the Department of Army's (Permittee) *Report of Annual Post-Closure Site Inspection; Doña Ana Range Camp Landfill (SWMU 29/FTBL -011)* (Report), dated December 17, 2009.

The Permittee has fulfilled its obligation to conduct an annual inspection in 2009 and submit an annual report to NMED. The requirement to conduct annual inspections of the Doña Ana Range Sanitary Landfill (SWMU 29) is included in NMED's letter dated May 27, 2008.

Mr. Landreth
March 12, 2010
Page 2

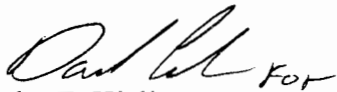

The review of the Report indicates that the inspection was conducted in accordance with the requirement described in the above mentioned letter. Native vegetation growth was observed at the SWMU. No erosion damage was detected at the SWMU. A hole was found at SWMU 29. Excavated material was replaced in the hole and it was covered with clean soil.

The Permittee is directed to notice a typographical error in the Permittee's cover letter accompanying the report for Doña Ana Range Sanitary Landfill (SWMU 29) inspection report. The cover letter indicated the name of the SWMU as the McGregor Range Camp Landfill instead of the Doña Ana Range Sanitary Landfill.

The Permittee must continue annual inspections of the Doña Ana Range Sanitary Landfill (SWMU 29) and submit an annual report documenting the results of inspections to NMED no later than December 31, 2010.

Please contact Pat Stewart at (505) 476-6059, should you have any questions.

Sincerely,

John E. Kieling
