RE: REVIEW
RESULTS OF THE SEMI-ANNUAL WASTEWATER OUTFALL
MONITORING FOR NEW MEXICO SITES-SEPTEMBER 2014
SWMU 76 MEYER POND AND SWMU 27B (DOÑA ANA POND)
FORT BLISS, NEW MEXICO
EPA ID #NM4213720101
HWB-FB-14-005

Dear Ms. Waggoner:

The New Mexico Environment Department (NMED) has reviewed the Department of the Army's (Permittee's) *Results of the Semi-Annual Wastewater Outfall Monitoring for New Mexico Sites September 2014, SWMU 76 Meyer Pond and SWMU 27B (Doña Ana Pond)*, (Report). Dated November 14, 2014, and received November 19, 2014.

The Permittee has fulfilled its obligation to conduct semi-annual sampling in September 2014 and submit sampling results and wastewater flow monitoring reports to NMED. The monitoring and associated reports are required by the January 2006 Settlement Agreement (2006 SA) between NMED and the United States Army, Fort Bliss Air Defense Artillery Center. NMED accepts the Report and has the following comment:

Ms. Waggoner
May 11, 2015
Page 2

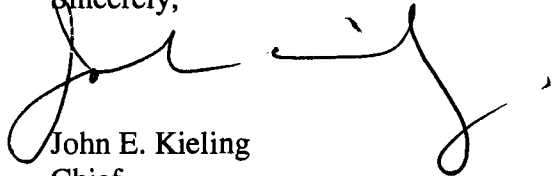

Comment:

1. Section 4, Table 4, page 5

NMED notes an inconsistency in the results reported in Table 4: September 2014 Summary Analytical Results and the Laboratory results reported in Appendix C-Analytic Data Reports. The result listed for the analyte isophorone at Doña Ana Outfall is listed as <0.00202 mg/L in Table 4, but is listed as <0.00208 mg/L in the laboratory report in Appendix C-Analytic Data Reports. In future monitoring reports, ensure that the values reported are consistent with the values reported by the analytical laboratory.

Please contact Siona Briley at (505) 476-6049 if you have any questions regarding this letter.

Sincerely,

John E. Kieling
Chief
Hazardous Waste Bureau
