**RE: WASTE WATER SAMPLING RESULTS REPORT FOR SEPTEMBER 2019
SEMI-ANNUAL WASTEWATER COMPLIANCE SAMPLING FOR MEYER AND DOÑA
ANA – NEW MEXICO RANGE OUTFALLS AT FORT BLISS, TEXAS
EPA ID #NM4213720101
HWB-FB-20-002**

Dear Mr. Moncada:

The New Mexico Environment Department (NMED) has reviewed the Department of the Army (Permittee) *Waste Water Sampling Results Report for September 2019 and Semi-Annual Wastewater Compliance Sampling for Meyer and Doña Ana – New Mexico Range Outfalls at Fort Bliss, Texas* (Report), dated October 21, 2019 and received January 8, 2020.

The monitoring and associated reports are required by the January 2006 Settlement Agreement (2006 SA) between NMED and the United States Army, Fort Bliss Air Defense Artillery Center. The Permittee has fulfilled its obligation to conduct semi-annual sampling in September 2019 and submit sampling results and wastewater flow monitoring reports to NMED.

The wastewater volumes to the Doña Ana and Meyer Ponds measured between April 2019 and September 2019 were recorded as 1,083,000 and 12,600 gallons, respectively. These volumes are within the normal range. Additionally, none of the constituent concentrations in the

Mr. Moncada
WW Sampling Report – September 2019
Page 2

wastewater samples collected during this sampling period exceeded the applicable regulatory limits.

The Permittee must continue to implement monthly flowrate measurement and semiannual sampling at the Doña Ana and Meyer Ponds and submit associated reports in accordance with the 2006 SA. The March 2020 reports must be submitted to NMED no later than **July 31, 2020**.

If you have any questions regarding this letter, please contact Michiya Suzuki at (505) 476-6059.

Sincerely,

Kevin Pierard
Chief
Hazardous Waste Bureau
