Subject: FWDA storage/disposal of chemical warfare material

Dr. Robert S. Dinwiddie, Program Manager  
RCRA Permits Management Program  
Hazardous and Radioactive Materials Bureau  
State of New Mexico  
Environment Department  
2044 Galisteo Street  
P.O. Box 26110  
Santa Fe, New Mexico 87502

Dear Dr. Dinwiddie:

The information requested in your letter, dated 22 February 1999, (enclosed) is not available at this time. The Army Environmental center (AEC) is searching all available records and talking to individuals that could possibly have any information concerning storage/disposal of chemical warfare material, and hasn't taped all available resources as of this date (people on leave, TDY, etc.).

AEC is still working on your request but does need additional time. Therefore, request an extension of 60 days, although it could be less, so a thorough search can be accomplished.

If you have any questions please call Mr. Larry Fisher at (435) 833-3504.

Sincerely,

Thomas A. Turner  
Chief, Environmental Office

Encl.
