**SUBJECT: EXTENSION REQUEST FOR DEVELOPMENT OF SOIL SCREENING LEVELS (SSL) AND SITE SPECIFIC DILUTION ATTENUATION FACTORS FOR THE FORT WINGATE DEPOT ACTIVITY, FORT WINGATE DEPOT ACTIVITY MCKINLEY COUNTY, NEW MEXICO
EPA # NM6213820974
HWB-FWDA-16-001**

Dear Messrs. Patterson and Smith:

The New Mexico Environment Department (NMED) is in receipt of the Fort Wingate Depot Activity's (Permittee) letter requesting an extension to submit the revised *Development of Soil Screening Levels (SSL) and Site Specific Dilution Attenuation Factors for the Fort Wingate Depot Activity* (Report), dated August 16, 2016 (Request). The Permittee indicates a need for additional time to properly address comments from NMED and prepare the revised Report.

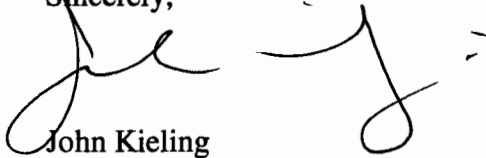

The Request states, "[t]he Army is requesting extension for this Revised, Final RCRA Facility Investigation Work Plan submittal to March 30, 2017." NMED has previously provided comments regarding the accuracy of information included in recent extension request documents. The Permittee must ensure that all information provided in their requests is accurate.

The Permittee has shown good cause for an extension; therefore, NMED grants an extension. The revised Report must be submitted to NMED no later than **June 30, 2017**.

Messrs. Patterson and Smith
