Dear Mr. York:

The Environmental Protection Agency (EPA) received the revised pages for the Description of Current Conditions Report and the Remedial Facility Investigation Workplan (RFI) on January 17, 1990.

I anticipate reviewing these documents in the immediate future. If comments made by the EPA and the New Mexico Environmental Improvement Division (NMEID) have been incorporated as we discussed, approval of these reports will be forthcoming in the near future.

Sincerely,

  
Kathleen O'Reilly, Geologist  
Technical Section (6H-CX)  
RCRA Enforcement Section
