Dear Mr. Antonoff:

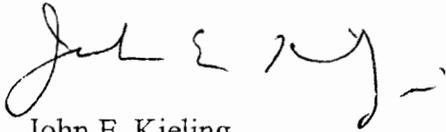

The New Mexico Environment Department (NMED) has reviewed the subject document. The Report fulfills GE Energy's requirements under the Consent Order to conduct a soil and ground water investigation, close the dry wells and leach field and perform corrective action as required. However, you should be aware that the U. S. Environmental Protection Agency (EPA) may have comments or concerns that will be addressed in separate correspondence.

Prior to NMED issuing a Certificate of Completion for Corrective Action Complete for the Former GE Apparatus Service Center, 4420 McLeod NE, Albuquerque as requested, a 30-day period of Public Notice will be initiated. After review of any public comments and consultation with the EPA, NMED will issue a Certificate of Completion for Corrective Action Complete.
