REPLY TO  
ATTN OF: DEV

SUBJECT: Installation Restoration Program

TO NMEID Hazardous Waste Section  
Attn: Boyd Hamilton  
1190 St. Francis Dr.  
Santa Fe, NM 87503

1. We are providing, under separate cover, one (1) copy of the Final Installation Restoration Program Remedial Investigation Report Holloman Air Force Base, New Mexico.

2. We would be willing to meet with you to discuss the report, your comments, the base line risk assessment, and the decision documents. Due to time constraints on the contract, this meeting needs to be held before the end of March 1990. We realize your staff may not have had the time to complete their review of the draft report sent to you on 28 August 1989. However, we believe a presentation by the contractor would be instrumental for the completion of your future review.

3. If you would be interested in meeting with us, please contact Sharon Moore at 479-3931 before 15 March 1990.

WILLIAM W. KOELM, Colonel, USAF  
Commander
