

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 6

1445 ROSS AVENUE, SUITE 1200
DALLAS, TEXAS 75202-2733

July 17, 1990

Sharon Moore
Senior Environmental Engineer
Holloman Air Force Base
Holloman Air Force Base, New Mexico 88330-5000

RE: Holloman Air Force Base - NM6572124422

Dear Ms. Moore:

On December 10, 1987, the Environmental Protection Agency (EPA) published the final rules on miscellaneous hazardous waste management units. These rules, covered under Subpart X of 40 CFR Part 264, apply to owners and operators of hazardous waste management units not covered under Subparts I through O of Parts 264 and 265 of 40 CFR. Pursuant to these rules, EPA has received your permit application.

EPA has begun review of your permit application using a contractor, PRC Environmental Management, Inc. to review your application, visit your facility and assist EPA in drafting your permit. If you are now or have in the past employed PRC Environmental Management, please contact Donald Webster, Subpart X Coordinator at (214) 655-6775.

After reviewing your application for completeness and background information, the PRC team will perform a site visit. During the site visit, the PRC team will attempt to gather further data necessary for technical evaluation of your application, discuss technical issues with site personnel, and become familiar with the design and operations of the facility. At EPA's discretion, member of its technical staff may participate in the site visit. Following the site visit, the PRC team will prepare a site visit report. The report will contain a brief description of (1) the facility, (2) types of activities conducted, (3) surrounding topography and land use, (4) description of the OB/OD unit(s) and its management, and (5) any discrepancies noted between the information in the application and the actual conditions at the site. This report will be forwarded to the EPA.

Your site visit has been scheduled for August 6, 1990. Please contact Mr. Reddy Pakanati, Work Assignment Manager at PRC Inc., if you have any questions regarding the scheduling of the site visit. Technical or regulatory questions should be directed to your EPA Facility Manager, Mr. Richard Mayer at (214) 655-6775.

Sincerely yours,

William K. Honker
Chief
RCRA Permits Branch

cc: Jack Ellvinger, NMEID

Mr. Ellvinger:

Identical letter was sent to:

Robert R. Tillett
Environmental Manager
Johnson Space Center
White Sands Test Facility
P.O. Drawer MM
Las Cruces, New Mexico 88004

Site visit for this particular facility is scheduled for October 15, 1990.
