Ms. Sharon Mocre
Environmental Coordinator
833 CSG/DEV
Holloman Air Force Base, NM 88330

Dear Ms. Moore:

At least one public information meeting is a necessary part of the process of granting Holloman Air Force Base an operating permit under the Resource Conservation and Recovery Act. It is intended to be an informal meeting to explain the activities of the Base that involve hazardous waste, and the permitting process, to any interested members of the public in the Alamogordo/Holloman Air Force Base area. It will not be a public hearing, and the precise format of the meeting is not predetermined.

In all probability only one or two members of the Environmental Improvement Division staff will be present. They will be fully prepared to present the necessary information and answer questions. Participation by personnel from Holloman Air Force Base would be welcome but not by any means required.

Your suggestions of an appropriate venue would be appreciated, along with dates that would be convenient to your personnel, should they desire to be involved, sometime during the months of October or November. The Environmental Improvement Division is prepared to rent an appropriate public building for the meeting if necessary, as well as to arrange for advertising in local media. Please coordinate arrangements (again, assuming that Base personnel would like to be involved at all) with David Morgan at 827-0582 or at the address given below.

Sincerely,

A. Elizabeth Gordon, Ph.D.
Permitting Supervisor
Hazardous and Radioactive Waste Bureau
