HOLLOMAN AIR FORCE BASE, NM 88330-5000

File - lu 91 HAFB

15 May

REPLY TO  
ATTN OF: 833 CSG/DEV

SUBJECT: TOC in Wells Downgradient of the Sewage Treatment Lagoons (ref yr ltr, May 3, 1991, same subj)

TO: Mr Allyn M. Davis  
Director  
Hazardous Waste Management Division (6H)  
U. S. Environmental Protection Agency, Region 6  
1445 Ross Avenue, Suite 1200  
Dallas, Texas 75202-2733

1. This is to formally request an extension for the submission of a groundwater quality assessment plan. As you are aware, we are attempting to prepare an application for a post closure care permit and delay of closure by 11 June 1991. This application is under joint preparation by Holloman AFB, Headquarters TAC, US Army Corps of Engineers, and Radian Corporation. The personnel associated with developing the application are also the same personnel available to work the groundwater assessment plan.

OK  
6/2

2. On 13 May 1991, Ms Moore, Holloman AFB Environmental Coordinator, discussed this with Dr Bruce Swanton, NMEID, who stated: "The NMEID considers the issue of the permit application to be paramount and would appreciate EPA authorization to allow us an extension on this submittal." We request you authorize us to provide you the plan 15 days from the 11 June deadline; i.e., 26 June 1991.

3. Please contact Sharon Moore at (505)/479-3931 with your decision and follow up with a hard copy letter. Your rapid response is appreciated.

*Howard E. Moffitt*  
HOWARD E. MOFFITT  
Deputy Base Civil Engineer

cc: NMEID, Dr Swanton
