SUBJ: 90-Day Accumulation Point

TO: New Mexico Environment Department  
Hazardous & Radioactive Materials Bureau  
525 Camino De Los Marquez  
P.O. Box 26110  
Santa Fe, NM 87502

1. This is to inform you that we intend to establish a 90-day hazardous waste accumulation point at building 806. Scheduled start date is 18 January 1993.
2. Holloman AFB is in the midst of establishing a centralized location for the distribution of hazardous materials. We have selected building 806 and will call it the Hazardous Material Control Center. Initially, this distribution point will only serve a portion of the base, but in the future, will incorporate the entire facility.
3. To control hazardous materials from "cradle to grave" we are going to require that personnel return unused portions of materials to the center before any more material can be issued. By default, the distribution center is going to become a hazardous waste accumulation point.
4. If you have any questions regarding this matter, please contact Roger Wilkson at 479-3931.
