*This fulfilled FY93 Grant commitment for RFI work plan review approval. SMT*

**CERTIFIED MAIL: RETURN RECEIPT REQUESTED**

Mr. Howard E. Moffitt  
Deputy Base Engineer  
Environmental Management  
550 Tabosa Avenue  
Holloman Air Force Base, New Mexico 88330-8458

**Subject: Approval of Phase I RFI Workplan for 28 Sites**

Dear Mr. Moffitt:

The Environmental Protection Agency, Region 6 has reviewed Holloman's revised Resource Conservation and Recovery Act (RCRA) Facility Investigation (RFI) Phase I Workplan (Table 2) for 28 Sites and Holloman's response to Region 6's comments. We hereby approve your RFI Workplan dated 25 May 1993, with the following modification.

**SWMU 156 - Imhoff tanks:** The four proposed soil borings shall be advanced to the bottoms of the tanks (approximately 30 feet below grade level). Two samples per boring shall be collected for analysis: one at the groundwater interface and the second at the bottom of the Imhoff tanks.

Holloman shall immediately implement this approved RFI Workplan as detailed in the approved Phase I RFI schedule in Figure 9-1. The RFI Report for the 28 Sites investigation is due 15 months after receipt of this approval letter. If Holloman expects any difficulties in meeting this deadline, written notice and a request for additional time should be submitted to Region 6 as soon as possible.

If you have any questions regarding this approval letter, please contact Lowell Seaton of my staff at (214) 655-8304.

Sincerely yours,

Allyn M. Davis, Director  
Hazardous Waste Management Division
