Dear Mr. Moffitt:

The Environmental Protection Agency (EPA) Region 6 has reviewed Holloman's Corrective Measures Study (CMS) Workplan for solid waste management units (SWMUs) 229 and 230 dated June 17, 1994. This workplan details the procedures that Holloman will follow to determine corrective action alternatives for the T-38 Test Cell and Building 828 fuel spills (SWMUs 229 and 230 respectively).

Region 6 hereby approves Holloman's CMS Workplan for SWMUs 229 and 230. Holloman shall have 180 days from the date of this letter to submit to Region 6 the draft CMS Report of potential corrective measures studied. If Holloman is unable to meet this deadline, then a written request for additional time must be submitted to Region 6.

If you have any questions regarding this approval letter, please contact Lowell Seaton of my staff at (214) 655-8304.

Sincerely yours,
