

File 22

19 OCT 1994

MEMORANDUM FOR Sen John Arther Smith  
1202 Allen St.  
Deming, New Mexico 88030

FROM: 49 CES/CEV  
550 Tabosa Ave.  
Holloman AFB, NM 88330-8458

SUBJECT: Public Notice for Holloman Air Force Base's Resource Conservation and Recovery Act (RCRA) Permit Modification.

1. Pursuant to the State of New Mexico Environment Department's Hazardous Waste Regulations (HWMR-6) Part IX, 270.42(a) (ii), Holloman Air Force Base is required to notify your office of our recent permit modification. This notification satisfies that requirement.
2. At our permitted Treatment Storage And Disposal (TSD) facility, we recently replaced an older outdoor hazardous waste storage pad with a new pad and added a metal roof. The new pad is exactly the same size (100' x 50') as the old one and is coated with a federally approved chemical resistant coating. The new pad has the same containment ability and will improve storage at this facility. The structural steel roof was added to eliminate direct sunlight and adverse weather.
3. If you have any questions, please contact David Scruggs at (505) 475-3931.

SIGNED

HOWARD E. MOFFITT  
Deputy Base Civil Engineer
