New Mexico Environment Dept (NMED)
525 Camino De Los Marquez
PO Box 26110
Santa Fe NM 87502

FROM: 49 CES/CD
550 Tabosa Ave
Holloman AFB, NM 88330-8458

SUBJECT: Holloman AFB (HAFB) Sewage Lagoons: Site Characterization Report

1. Enclosed please find the Site Characterization Report for the HAFB Sewage Lagoons. This document summarizes data collected in 1994 and 1995, and characterizes the present condition of the lagoons in comparison with past conditions. The document supplements the closure plan submitted in May 1995 by updating the characterization of site conditions. In July 1995, you will receive the Biological Resources Report, which will examine the ecological impacts of various closure alternatives, and the Risk Assessment Update, which will address data gaps and other issues identified in the 1993 risk assessments.

2. Please direct any questions to Dr Fred Fisher of the Civil Engineer Environmental Flight, 49 CES/CEV, (505) 475-3931/5062.

Howard E. Moffitt
HOWARD E. MOFFITT
Deputy Base Civil Engineer
