GROUNDWATER BUREAU

SUBJECT: Groundwater Discharge Permit Application

1. We are hereby submitting one copy (attached) of a groundwater discharge application and the application fee to allow for the discharge of treated wastewater effluent from the new Holloman AFB Wastewater Treatment Plant (WWTP) to constructed wetlands, and proposed irrigation of the Holloman golf course. When discharging to the constructed wetlands, the effluent will flow from the WWTP to Lagoon G and then from Lagoon G to the constructed wetlands. When discharging for irrigation purposes, effluent will be piped directly to the golf course.
2. A drawing showing the layout of the constructed wetlands project is also included in this package.
3. A National Pollutant Discharge Elimination System Permit application has been submitted to the Environmental Protection Agency Region VI to allow effluent to be discharged from the WWTP to Lake Holloman and Lagoon G.
4. If you need more information, please feel free to contact Dr. Fred Fisher and Mr. Brent Hunt at (505) 475-3931.

  
HOWARD E. MOFFITT  
Deputy Base Civil Engineer
