SUBJECT: Resource Conservation and Recovery Act (RCRA) Permit Consolidation

1. As Mr. John Poland has discussed with members of your staff, we (Holloman AFB) would like to include the Container Storage Facility permit revisions as part of the 20,000-lb Open Detonation Unit permit modification. This would effectively cover both units under one RCRA permit.

2. My point of contact for this action is Mr. Poland who may be reached at (505) 475-3931.

Base Civil Engineer
