Holloman AFB NM 88330-8458

SUBJECT: 20,000 Pound Open Detonation Unit (ODU) Quarterly Sampling and Monitoring Report

1. Per New Mexico Environment Department RCRA Permit for Open Detonation Treatment Unit, EPA Number NM6572124422, Holloman AFB (HAFB) is required to perform quarterly sampling of the 20,00-Pound ODU after the first scheduled detonation event of each quarter. HAFB is also required to submit a quarterly sampling report to assess the performance of the ODU treatment process. However, there were no scheduled detonation events at the 20,000-Pound ODU during the 2nd quarter of 1998. Since no sampling occurred at the 20,000-Pound ODU during the 2nd quarter, this letter replaces the quarterly report.

2. If you have any questions or require additional information, please contact Drew Lessard at (505) 475-5177.
