Santa Fe NM 87502

FROM: 49 CES/CD
550 Tabosa Avenue
Holloman AFB NM 88330-8458

SUBJECT: 1999 Sewage Lagoon Long-term Monitoring (LTM) Report and Revised Record
Drawing for the Sewage Lagoons Closure

1. The attached *Final 1999 Sampling Report* (Attachment 1) is submitted for your review. As discussed in the report, none of the analytes were detected above established alternate concentration levels. It is our recommendation that LTM activities cease and final closure approval be granted.
2. In addition, Attachment 2 is the revised record drawing for the sewage lagoons. Two copies are submitted and intended to replace the original drawings in Appendix A of the *Final Closure Report for the Sewage Lagoons Closure* (dated Jul 99) and Attachment 1 of the *Deed Notification Summary for Former Sewage Lagoons* (dated Jul 99). Changes to the original drawing reflect comments received during HRMB's inspection on 12 Jan 00. Most notably, the former lagoons are shown along with Solid Waste Management Unit (SWMU) 184 (Wastewater Recirculation Line) and the recently constructed Sewage Lagoons Drainage Line (to the west of the lagoons).
3. If you have any questions or require additional information, please contact Jose Gallegos or Court Fesmire at (505) 572-5395.

HOWARD E. MOFFITT
Deputy Base Civil Engineer
