SUBJECT: Compliance Agreement Quarterly Report – No. 45

1. Pursuant to the requirements set forth in Section X--REPORTING AND EXTENSIONS section of the Compliance Agreement signed on 20 December 1988, we hereby submit the 45th Quarterly Progress Report. Events during the past quarter are described below.
2. The final closure report and the deed notification were submitted to the New Mexico Environment Department (NMED) and the Region VI office on 19 Jul and 16 Aug 99, respectively. The documents are being reviewed at this time by the NMED. The NMED requested additional drawings of the closed lagoons. Those drawings were supplied to the NMED in Jun 00.
3. The drainage project referred to in previous quarterly reports is complete, including the revegetation. Revegetation was completed in Jun 00. The drainage system constructed allows for drainage of stormwater runoff that typically accumulated just outside the northern boundaries of the former lagoons. The commencement of the annual "monsoon" rains has shown that the drainage system, as constructed, is effective in eliminating the ponding of rainwater in this area.
5. Documentation of the above is available upon request from the 49 CES/CEV office at Holloman AFB. If you have any questions or comments, please contact Court Fesmire or Jose Gallegos at (505) 475-5395.
