**RE: REVIEW AND APPROVAL OF THE FINAL REPORT FOR THE  
PRELIMINARY ASSESSMENT/SITE INSPECTION OF DP-63 - DISPOSAL PIT  
63  
HOLLOMAN AIR FORCE BASE  
EPA ID NO. NM6572124422**

Dear Mr. Moffitt:

The New Mexico Environment Department (NMED) Hazardous Waste Bureau has reviewed the Final Report for the Preliminary Assessment/Site Inspection of DP-63 dated January 2001 that Holloman Air Force Base (HAFB) submitted on March 5, 2001 for the above-referenced solid waste management unit (SWMU).

NMED approves the report as administratively and technically adequate provided the following discrepancy is addressed.

- The locations of boreholes DP02 and DP03 are reversed in figures 2-1, 2-3 and 4-1 compared to their locations as depicted in the drilling logs presented in Appendix B.

The NMED agrees with the recommendations discussed in the report that additional investigation and risk assessment is warranted. The NMED has received and given HAFB comments on the proposed work plan to perform this additional investigation. Final approval of

the work plan will be sent under separate cover. Please submit the requested information regarding the location of the boreholes within sixty (60) calendar days from receipt of this letter.

If you have any questions or need additional information, please contact Steve Jetter at (505)841-9488.

Sincerely

Cornelius Amindyas
