SUBJECT: Request for Revised Schedule to Meet Additional Characterization Requirements for Seven Solid Waste Management Units (SWMUs)

1. We received your 10 Aug 04 response to our 21 May 04 letter concerning subject requirements. Holloman AFB respectfully requests that the schedule for compliance with these requirements be postponed until funding is received.
2. The unanticipated characterization requirements for the SWMUs were a result of discussions between the New Mexico Environment Department, Holloman AFB and Air Combat Command representatives at an Apr 2004 meeting. Funds were programmed as soon as these additional requirements were known. This FY05 funding, however, is not expected until after 1 Jan 05. We cannot possibly meet the schedule until funding is received.
3. Holloman AFB has made every effort to obtain funding for this unanticipated work. We remain committed to addressing all environmental issues in a complete and timely manner. If you have any questions, please contact Mr. Dan Holmquist at (505) 572-5395.
