SUBJECT: Request for 90-Day Extension to Meet Additional Characterization Requirements for Seven Solid Waste Management Units (SWMUs)

1. Holloman AFB respectfully requests another 90-day extension to meet additional characterization requirements for seven SWMUs. This additional extension is needed as we await the necessary funding.
2. The unanticipated characterization requirements for the SWMUs were a result of discussions between the New Mexico Environment Department, Holloman AFB and Air Combat Command representatives at an April 2004 meeting. Funds were programmed as soon as these additional requirements were known. This FY05 funding, however, has not been received and is not expected until after 31 Mar 05. We cannot meet the schedule until funding is received.
3. Holloman AFB has made every effort to obtain funding for this unanticipated work. We remain committed to addressing all environmental issues in a complete and timely manner. If you have any questions, please contact Ms. Deborah Hartell at (505) 572-3931.
