1. Holloman AFB requests a 90-day extension to respond to the Notice of Deficiency Regarding the Monitored Natural attenuation Report and the Groundwater Monitoring Work Plan for SS-61 (AOC-1001).
2. The 90-day extension is necessary in order to develop an alternative approach for the site that is compatible with the base's 22 Feb 06 presentation to NMED for addressing groundwater at all of our sites listed in Table A of the base RCRA Permit. An extension would move the due date to 24 Jul 06.
