MEMORANDUM FOR NEW MEXICO ENVIRONMENT DEPARTMENT

Attn: Mr. James Bearzi

FROM: 49 CES/CD

Holloman AFB NM 88330-8458

Subject: 90-Day Extension Request for Submittal of the Response to the Notice of Deficiency (NOD) for the Voluntary Corrective Measures Report for DP-64 (AOC-1) Chemical Agent Site, dated August 29, 2006

1. Holloman AFB requests a fifth 90-day extension to respond to the NOD for the Voluntary Corrective Measures Report for DP-64 (AOC-1) Chemical Agent Site.
2. This additional 90-day extension is necessary due to the fact that our previously requested funding, for further investigation activities necessary to respond to the NOD comments, was just recently received by the US Army CoE. They have now contracted for the work to be done with an estimated start date of early July 2007. The extension would allow time to receive the required information. If granted, this extension would move the due date to 29 August 2007.
3. If you have any questions, please contact Mr. George Fish of our Environmental Flight at (505) 572-5395.
