Holloman AFB, NM 88330-8458

SUBJECT: 1st Quarter Detonation Event and Sampling at the 20,000 Open Detonation
Unit, Holloman AFB, Permit NM6572124422-OD

1. This letter documents a phone conversation I had with Mr. Cornelius Amindyas of your staff on 7 Dec 07 concerning the subject detonation and sampling event. I requested permission to extend the sampling time frame beyond the 72-hour time limit in the permit because required data is currently not available. The detonation event occurred yesterday afternoon.
2. Data from previous detonation events must be evaluated along with data from the actual event to obtain a representative sampling location. The information resides on a computer network which was disabled late Wednesday for security reasons. At this time, we do not know when the network will be available. We believe that the system will be available for use sometime Monday and should be able to complete sampling by Wednesday 12 Dec 07.
3. Feel free to contact me at (575) 572-3931 if you have any questions.
