Holloman AFB NM 88330-5840

New Mexico Environment Department
Attn: Mr. John Kieling
Hazardous Waste Bureau
2905 Rodeo Park Drive East, Building 1
Santa Fe NM 87105-6303

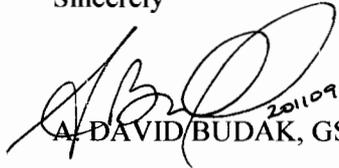

Dear New Mexico Environment Department

As facility owner of a Container Storage Operating Permit, Holloman AFB is providing written notification following a phone conversation with Corneleous Amindyas on 22 September 2011 regarding the undermining of the foundation of the Indoor Container Storage Area, Building 118. During maintenance of the adjacent Staging Area pad, it was revealed that the foundation of Building 118 has cracked and settling has occurred. Upon initial evaluation, the containment sumps do not seem to be affected, but their integrity may be compromised during the repair of the foundation. A project will be programmed to have an Architectural Engineering Firm evaluate the structural integrity of the facility and provide a proposal with the recommend a fix and associated cost.

In accordance with 40 CFR 270.11(d)(1), "I certify under penalty of law that this document and all attachments were prepared under my direction or supervision according to a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations".

If you have any questions, please contact Ms. Geraldine Arellano of our 49th Civil Engineer Squadron Asset Management Flight at (575) 572-3931.

Sincerely

A. DAVID BUDAK, GS-14, DAFC
