HEADQUARTERS 49TH WING (ACC)
HOLLOMAN AIR FORCE BASE, NEW MEXICO

ENTRANCE

MEMORANDUM FOR ALL 49TH WING PERSONNEL

FROM: 49 CES/CEA

SUBJECT: Asset Management Environmental Policy Statement

1. The 49th Asset Management Flight is dedicated to protecting the environment through the conservation of our natural resources. This policy letter requires the support of all stake holders in order for its success. This statement establishes the direction of the 49th Asset Management Flight in its efforts to accomplish the huge task of environmental protection.
2. In the process of accomplishing everyday duties, people perform tasks that could potentially affect the environment. Our duty to comply is to provide guidance and leadership to make environmental protection attainable. We must spread the word on programs and policies, and make sure everyone in the organization knows how and why we put so much effort into this area.
3. Our goals are simple and direct, and establish clear priorities. We will comply with all laws and regulations and clean up areas where we, or our predecessors, have failed to comply. Commanders must take responsibility for the areas under their supervision and understand the requirements and standards of compliance.
4. As an organization, we must also go several steps beyond compliance. We can improve the way we comply by improving our comprehensive pollution prevention program. This means minimizing the use and disposal of hazardous chemicals, implementing waste reduction opportunities, and recycling solid waste when possible. We must examine our processes and look for areas where improvements can be made. I challenge every unit in the wing to help reduce our environmental footprint.
5. Holloman Air Force Base is a recognized leader in protecting the environment. We have accomplished a great deal in the past and now must look to the future. Preventing pollution from the beginning eliminates environmental non-compliance. Everyone must do his or her part to make that happen.
