SUBJECT: NMED letter dated September 18, 2014 Accelerated Corrective Measures Completion Report Sites OT-32 and RW-42 Holloman AFB (EPA ID # NM6572124422, HWB-HAFB-12-017; AOC-PRI-A, SWMU 111)

Dear Mr. Kieling,

Holloman AFB has received your letter of September 18, 2014 regarding the Accelerated Corrective Measures Completion Report Sites OT-32 and RW-42 Holloman AFB.

**Site OT-32, Primate Research Lab Sewer Line (AOC-PRI-A)**

The site will get additional quarterly sampling and a new potentiometric surface map of the area, however, the work is pending FY15 funds. At this time the work is not anticipated to start until summer of 2015 with field work starting after work plan approval.

**Site RW-42, Radioactive Waste Disposal Area (SWMU 111)**

This site has a planned start date in 2015 for additional investigation and if feasible removal of the radioactive material. Request an extension to the November 19, 2014 date to submit a work plan until September 15, 2015. This date is based on obtaining FY15 funds and placing them on contract to initiate the RW-42 investigation.

If you have any questions regarding this submittal, please contact me at (575) 572-3931.

Sincerely,

DEANNA ROTHHAUPT, GS-12, DAFC
