Dear Ms. Rothhaupt:

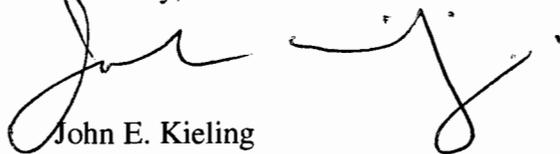

The New Mexico Environment Department (NMED) has reviewed the Holloman Air Force Base (Permittee) *Final Interim Measures Work Plan for SD-27, Pad 9 Drainage Pit (SWMU 141), Holloman Air Force Base, New Mexico*, dated October 2014, and received on October 31, 2014. The subject plan is hereby approved, subject to the conditions set forth in the following paragraph.

The Permittee shall continue quarterly groundwater sampling and analysis at SD-27, if concentrations detected in confirmation groundwater samples have not been reduced to levels that meet applicable regulatory standards pursuant to the Permittee's *Accelerated Corrective Measures Work Plan Addendum for SD-27 Pad 9 Drainage Pit (SWMU 141)*, which was approved by NMED on March 2, 2012. Furthermore, if regulatory standards are met in the initial confirmatory sampling event, a minimum of seven additional quarters of confirmatory groundwater sampling and analysis must be completed to demonstrate that the standards have been met.
