Holloman Air Force Base, Alamogordo, New Mexico

Dear Mr. Kieling:

Holloman AFB is following up on the correspondence previously exchanged with NMED on the Accelerated Corrective Measures Completion Reports Sites OT-32 and RW-42 at Holloman AFB.

Site RW-42, Radioactive Waste Disposal Area (SWMU 111)

The 2 October 2014 letter from Holloman AFB Environmental to NMED regarding Site RW-42 requested an extension for submittal of a work plan to 15 September 2015. Because the site start date was delayed from March 2015 until July 2015, an extension for submittal of the work plan is being requested until 25 November 2015.

Site OT-32, Primate Research Lab Sewer Line (AOC-PRI-A)

The 3 February 2015 letter from Holloman AFB Environmental to NMED regarding Site OT-32 indicated that the second sampling event was planned for Spring 2015. Because the field work was delayed until Summer 2015, an extension for submittal of the report is being requested until 25 November 2015, in parallel with the RW-42 site.

Site SS013, Sodium Arsenite Spill Area (AOC-J)

The 20 December 2013 letter from Holloman AFB Environmental to NMED regarding Site SS013 requested an extension to 30 September 2015. Because the site start date was delayed from March 2015 until July 2015, an extension for submittal of the SS013 Letter Report is being requested until 30 October 2015.
