Dear Mr. Kieling,

Holloman AFB requests a 60-day extension to 30 June 2016 from the 30 April 2016 due date for the *SS059 Data Gap Investigation Report* and supplemental *Work Plan*, as requested by NMED in the 8 January 2016 Approval With Modifications letter for the *Technical Memorandum, T-38 Summary Report (2004-2014)*.

This request is made in order to incorporate additional phase-separated hydrocarbon (PSH) gauging data obtained in late-March 2016, refine the conceptual site model with this new data, and further develop the technical approach to optimize the (PSH) recovery strategy presented in the Work Plan.
