Dear Mr. Kusmak:

The New Mexico Environment Department (NMED) has reviewed the document: *Addendum to the DP-030/SD-033 (Solid Waste Management Unit 113B) Long-Term Monitoring Work Plan, Holloman Air Force Base, New Mexico, February 2017*, which was received on March 3, 2017. The subject work plan is approved with the following modifications.

The figures did not present New Mexico State Plane coordinates. In the future, provide New Mexico State Plane coordinates on all figures. The NMED will require revisions to figures that do not provide New Mexico State Plane coordinates.

The groundwater samples collected during the next two sampling events also shall be analyzed for the presence of 1,4-dioxane using EPA Method 8270 (SIM) in addition to the suite of analyses as provided in the Long-Term monitoring work plan.
