Re: **INTENT TO APPROVE: PETITION FOR CORRECTIVE ACTION COMPLETE FOR TWELVE
SOLID WASTE MANAGEMENT UNITS / AREAS OF CONCERN, HOLLOMAN AIR FORCE
BASE**
EPA ID# NM6572124422
HWB-HAFB-17-012

Dear Mr. Kieling,

Holloman Air Force Base (AFB) is pleased to submit responses to the Public Notice, Fact Sheet, and Statement of Basis provided by the New Mexico Environment Department (NMED) in your above-referenced 21 June 2018 letter to Holloman AFB.

Attached, please find a table detailing the rationale for changing the proposed fact sheet designation for Solid Waste Management Units (SWMUs) 19, 20 and Area of Concern (AOC)-UST-298 to Table B instead of Table C of Holloman AFB's Resource Conservation and Recovery Act (RCRA) Hazardous Waste Facility Permit No. NM6572124422.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision according to a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

If you have any questions regarding this submittal, please contact me at (575) 572-6675 or by email at adam.kusmak@us.af.mil.

Sincerely,

KUSMAK.ADAM

Proposed Revisions for Holloman AFB RCRA Permit Table B and C – 16 August 2018

SWMU / AOC:	SWMU 19	SWMU 20	AOC-UST-298 (also AOC-298)
Site ID:	OW968	OW967 (SWMU 20)	TU508 (also TU/US-C508)
Site Name:	Building 638 Oil/Water Separator	Building 639 Oil/Water Separator	Building 298 UST
Basis for Determination:	All future activities conducted at SWMU 19 will be conducted under SWMU 229 remediation activities, and <u>no additional work specific to the OWS at SWMU 19 is required</u> . Controls will include ongoing groundwater monitoring and corrective action activities associated with the overlapping SWMU 229.	All future activities conducted at SWMU 20 will be conducted under SWMU 229, and <u>no additional work specific to the OWS at SWMU 20 is required</u> . Controls will include ongoing groundwater monitoring and corrective action activities associated with the overlapping SWMU 229.	All future activities will be conducted under AOC-H remediation activities, <u>and no additional work specific to site TU508 is required</u> .
Proposed Correction to 21 June 2018 NMED fact sheets:	Holloman AFB requests SWMU 19 (OW968) to be moved to Table B (Corrective Action Complete [CAC] without Controls, instead of Table C (CAC with Controls).	Holloman AFB requests SWMU 20 (OW967) to be moved to Table B (CAC without Controls, instead of Table C (CAC with Controls).	Holloman AFB requests AOC-UST-298 (TU508) to be moved to Table B (CAC without Controls, instead of Table C (CAC with Controls).
Justification:	Although groundwater contamination is present beneath this SWMU, additional groundwater monitoring and corrective action activities will be conducted in association with ongoing activities at overlapping site SWMU 229 (Former T-38 Test Cell Fuel Spill), and no additional work specific to SWMU 19 is required.	Although groundwater contamination is present beneath this SWMU, additional groundwater monitoring and corrective action activities will be conducted in association with ongoing activities at overlapping site SWMU 229 (Former T-38 Test Cell Fuel Spill), and no additional work specific to SWMU 20 is required.	Although groundwater contamination is present beneath this AOC, additional groundwater monitoring and corrective action activities will be conducted in association with ongoing activities at overlapping site AOC-H (SS018 VOC Spill Site). All monitoring wells associated with this AOC will be retained for additional monitoring or corrective action activities at AOC-H, and no additional work specific to AOC-UST-298 is required.
