Dear Mr. Kusmak:

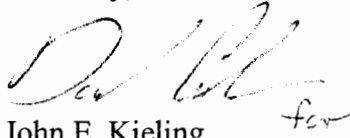

The New Mexico Environment Department (NMED) has reviewed the above referenced Facility Investigation Report (Report) submitted by Holloman Air Force Base on October 19, 2018. NMED hereby approves the Report. Based upon the results of ground penetrating radar surveys of the sites and the results of soil and groundwater analyses presented in the Report, these former septic tank sites will not be considered solid waste management units or areas of concern under the facility's Hazardous Waste Operating Permit.

This approval is based on the information presented in the document as it relates to the objectives of the work identified by NMED at the time of review. Approval of this document does not constitute agreement with all information or every statement presented in the document.
