Subject: Site Permit

Date March 11, 1991

MAR 18 1991

Dear Sir:

I believe Pro Shop, (PO Box AP Elephant Butte NM 87935) NM Business License No. 996, Issued Aug 7, 1990, to be in violation of Chapter 71, Article 4, NMSA 1978 for the transportation and storage of hazardous waste without a state issued permit.

Pro Shop is a private contractor for the USAF, solicitation F29650-90-B9002 since 1 NOV 1990. Part of their contract is to retrieve and store hazardous waste which is generated by the 1550th based in Albuquerque. This hazardous waste is retrieved from the waters of Elephant Butte Lake and stored in a Conex on the shores of a public Camp Ground within the park. (Lost Canyon).

KAFB1094

I have contacted Col McDaniels of USAF and he is looking into a protest that I filed with him. I do not believe the current contractor to have the proper insurance nor ability to handle hazardous waste in the state of New Mexico.

I am requesting of this office to insure that this contractor has the proper site permits.

Please look into this.

Thank you

Ron Bratton
