Dear Col. Norris,

Pursuant to your letter of May 5, 1992, requesting a 180 day extension for closure of the base sewage lagoons, we hereby grant your request. Please be advised that all relevant regulations regarding clean-up levels and procedures will still apply. If your closure plan requires notification of NMED/HRMB personnel before sample collection at any stage of the closure, please do so with sufficient lead time that we can assign a member of our technical staff to observe or split samples.

Thank you for your attention to regulatory requirements. If you have any questions, please contact Dr. Herb Grover at 827-4300.

Sincerely,

Edward L. Horst
