Dear Colonel Norris:

The Environmental Protection Agency has reviewed your letter of October 7, 1992, requesting an extension of the final report on the Tijeras Arroyo project. Per a conversation between Barbara Driscoll of my staff and John Gould of your staff on October 16, 1992, it was determined that this report would cover additional investigations conducted by Kirtland Air Force Base which had not been required under the Hazardous and Solid Waste Amendments (HSWA) portion of the RCRA permit. As this report was not a permit requirement, then EPA does not need to grant an extension for this report. I understand that the results of the Tijeras Arroyo investigation which were required in the HSWA permit will be submitted with the Stage 2A RCRA Facility Investigation (RFI) Report.

Should you have additional questions, please contact Barbara Driscoll at (214) 655-6785.

Sincerely,

William K. Honker, P.E.
Chief
RCRA Permits Branch (6H-P)
