Ms Stephanie Stoddard  
Water Resource Specialist  
Hazardous and Radioactive Materials Bureau  
PO Box 26110  
525 Camino de los Marquez  
Santa Fe NM 87502

Dear Ms Stoddard

Attached is a copy of a map showing the proposed locations for the three background samples to be collected in the vicinity of the Battery Shop french drain. The locations are as close as possible to the old french drain without being affected by the discharges to the drain or by other area activities.

Soil samples will be collected from a depth of three feet and analyzed for total lead using analytical method SW 7421 (Furnace Method).

If you have any questions, please contact John Gould at 846-2773.

Sincerely

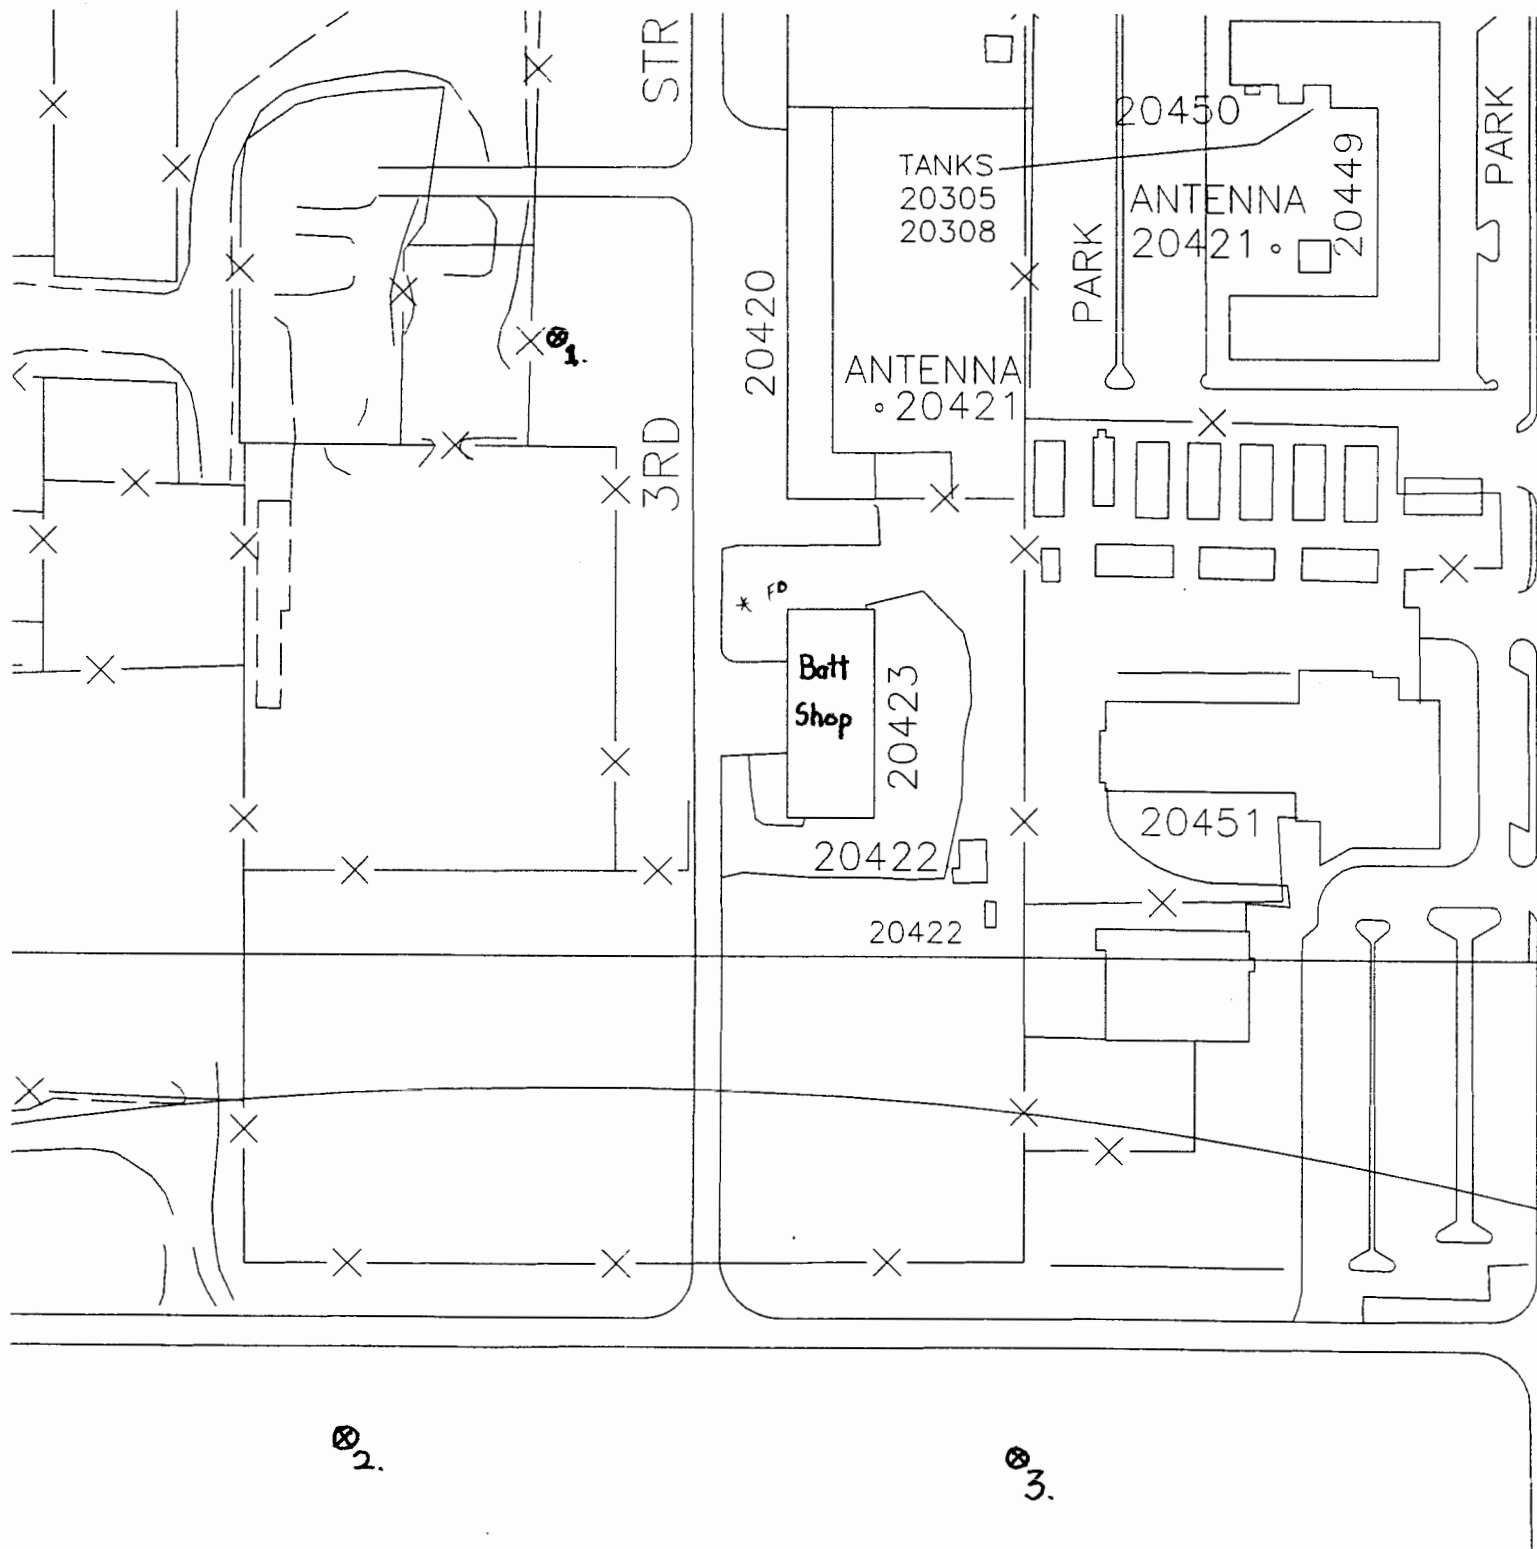

THOMAS A. NORRIS, Colonel, USAF  
Director  
Environmental Management Division
