Dear Ms Hoditschek

Attached are one set of originals and one set of copies of the independent professional engineer's and owner/operator's closure certifications for the Battery Shop French Drain and the Sewage Lagoons/Golf Course Main Pond Units of Kirtland Air Force Base.

The attached certifications represent the final documentation required for closure in full and complete compliance with the rules and regulations of the New Mexico Environment Department, HWMR Chapter 265, Subpart G.

We request that you approve the certifications and complete the closure of these units. If you should have any questions, please contact Mr Chris DeWitt at 846-0053, or Mr Walter Darr at 846-2774.

Sincerely

THOMAS A. NORRIS, Colonel, USAF  
Director  
Environmental Management Division

CLOSURE CERTIFICATION

The undersigned, Colonel Gary C. Vycital, affirms that Kirtland Air Force Base, a Department of Defense Federal Facility, with its principal place of business at Albuquerque, New Mexico, which formerly owned and operated a solid waste management unit known as the Battery Shop French Drain, and located at Kirtland Air Force Base, Albuquerque, Bernalillo County, New Mexico, has completed and permanently ceased the active operation of this facility and has fully implemented all measures relating to the closure of the facility as set forth in the Closure Plan approved by the State of New Mexico for said facility.

Now, therefore, I, Colonel Gary C. Vycital, hereby swear and affirm that the above-named hazardous waste facility has been closed in accordance with the facility's Closure Plan approved in writing by Ms Kathleen M. Sisneros on 21 December 1992, that all measures relating to the closure of the facility required by the Closure Plan and the New Mexico Environment Department rules and regulations of HWMR Chapter 265, Subpart G, have been fully implemented, and that to the best of my knowledge, no violations continue to exist that may have arisen prior to closure.

## CLOSURE CERTIFICATION

I, Mark S. Kylo, a Professional Engineer registered pursuant to the New Mexico Engineering and Surveying Practice Act, hereby certify that I have reviewed the Closure Plan for the Battery Shop French Drain at Kirtland Air Force Base, located at Albuquerque, New Mexico, that I am familiar with the rules and regulations of New Mexico Hazardous Waste Management Regulation (HWMR Chapter 265, Subpart G), pertaining to closure of such facility, and that I personally have made visual inspection of the aforementioned facility, and that the closure of the aforementioned facility has been performed in full and complete accordance with the facility's closure plan approved in writing by Ms. Kathleen M. Sisneros, on December 21, 1992, and the New Mexico Environment Department rules and regulations of HWMR Chapter 265, Subpart G of the New Mexico Environment Department.

CLOSURE CERTIFICATION

The undersigned, Colonel Gary C. Vycital, affirms that Kirtland Air Force Base, a Department of Defense Federal Facility, with its principal place of business at Albuquerque, New Mexico, which formerly owned and operated two hazardous waste surface impoundments known as the Sewage Lagoons and Golf Course Main Pond, and located at Kirtland Air Force Base, Albuquerque, Bernalillo County, New Mexico, has completed and permanently ceased the active operation of these facilities and has fully implemented all measures relating to the closure of the facilities as set forth in the Closure Plans approved by the State of New Mexico for said facilities, with the exception that the dry sludges, which laboratory analyses show do not contain any regulated hazardous waste, were left in-place.

Now, therefore, I, Colonel Gary C. Vycital, hereby swear and affirm that the above-named hazardous waste facilities have been closed in accordance with the facility's Closure Plans approved in writing by Ms Kathleen M. Sisneros on 18 November 1991, that all measures relating to the closure of the facilities required by the Closure Plans and the New Mexico Environment Department rules and regulations of HWMR Chapter 265, Subpart G, have been fully implemented, with the exception that the dry sludges, which post-closure plan laboratory analyses show do not contain any regulated hazardous waste, were left in-place, and that to the best of my knowledge, no violations continue to exist that may have arisen prior to closure.
