Dear Mr. Honker

We received a 7 April 1994 letter from Mr. Allyn Davis, US EPA Hazardous Waste Management Division, which granted approval of our Appendix II (Stage 2C) RFI Work Plan and formation of Appendix IV. His letter contains some minor discrepancies I would like to correct at this time:

a. Radioactive Waste Disposal Area 7 (RB-7) is not an Appendix III SWMU. It is part of Area of Concern (AOC) 6-A, which is in Appendix II. The RB-7 and other AOC sites (RB-4, RB-5, RB-6, RB-8, and RB-9) were not investigated as part of the Stage 2B RFI. Because RB-7 may contain mixed waste, KAFB added the site to the Stage 2C work plan to expedite review. While your office was reviewing the Stage 2C work plan, KAFB asked that RB-7 and RB-11 be placed into the new Appendix IV; you subsequently approved this request.

b. Since then, your office directed KAFB to investigate the other sites in AOC 6-A. We therefore asked to add these sites to Appendix IV, with a draft work plan due to your office on 31 May 1994; that request was approved. The RFI report for these five sites (Stage 2D-2) is due 12 months after the work plan is approved. The RFI report for RB-11 and RB-7 (Stage 2D-1) is due on 8 December 1994, as Mr. Davis' letter indicated.
