Barbara Hoditschek
Manager, RCRA Permit Program
Hazardous and Radioactive Materials Bureau
525 Marquez Place
Santa Fe, New Mexico 87502

Dear Ms. Hoditschek

As discussed with Cornelius Amindyas on 14 and 15 July 1994, Kirtland Air Force Base (KAFB) will run an air model for the Explosive Ordnance Disposal (EOD) range Open Detonation (OD) unit. Air modeling is not required by the regulations (as discussed with Mr. Amindyas), but KAFB is willing to aide NMED in the permit process by providing valid air models. However, modeling of EOD-type facilities is very difficult and does not always provide valid results. Therefore, as the information from the air model is obtained, KAFB will provided to the New Mexico Environment Department (NMED), the data if it is representative of operations at the EOD OD facility.

If you have any questions please contact Terry Cooper at 846-0007.

Sincerely

WALTER S. DARR III
Chief, Compliance
Environmental Management
