COMMENTS:

Steve:

After further discussing Kirtland's Stage 2A NOD with Region 6 personnel (ie. my boss), I have determined that the best approach is to require only an NOD response letter, and NOT a new work plan, within 2 months of NOD issuance. This will allow us to review any justifications that Kirtland can supply for discrepancies, deficiencies, etc., to determine exactly what needs to go into a new (future) work plan. This new approach will add some time to the whole process, but hopefully will result in a better work plan.

Please call if you have questions, comments, concerns, etc. I will be in a lot of meetings today but you can always leave a more detailed message on my voice mail (you usually do anyway!)
